Intelligent Delivery...in a Flash

Smart Delivery System

Effective

- Fully integrated SMART POWER system
- Constantly monitors skin resistance
- Detects problems with current continuity
- Indicates treatment mode
- No dose controller

Convenient

- No external power source
- No saline fill
- Simply pull the tab to activate, fill the drug reservoir and apply directly to treatment site

Fast & Accurate

- 80 mA*min in 2.5 hrs
40 mA*min in 1.25 hrs
- Realtime power-off indicated by LED
- Accurate timing and dosage; $\pm 10\%$ vs. $\pm 37\%$ for other patches

Comfortable

- Minimizes skin sensitivity
- Eliminates itching
- Thin and flexible
- No skin adhesive burns
